1. INTRODUCTION

Welcome to South Africa Service Rifle Association. We hope that you will enjoy yourself in a positive manner that will stay with you forever.

We are a young, but not a new sport - it started in the 1890,s with the well-known 303 and evolved to the latest Semi Auto Rifles as used across the world today

2. AIM

To promote sport shooting and the safe handling of firearms, in the pursuit of excellence in civilian marksmanship as a positive and significant contribution to South African Shooting. To prepare for competition shooting at Club, Provincial, National and International levels.

3. SAFETY

The safety precautions and firearms handling drills described in this rulebook and the applicable publications must be observed during the firing of all matches.

3.1 Always keep the muzzle pointed in a safe direction, firearm should not be loaded unless told to do so by the Range Officer on the shooting point. Be sure the barrel is clear and clean before shooting.
3.2 Do not rely on your gun's SAFETY. Be sure of your target and what's beyond it. Use the correct and safe ammunition for your gun.
3.3 If your gun fails to fire when the trigger is pulled ''Handle with Care''.
3.4 Don't alter or modify your gun, learn the mechanical and handling characteristics of the firearm you are using.
3.5 No Rifle will have a magazine on the rifle unless told to do so by the Range Officer.

USE COMMON SENSE!!!!!!

4. ARBITRATION COMMITTEE

This committee will be nominated by the Range Officer.

The committee is there to make a binding decision on any dispute that a shooter has on a condition or incident that cannot be resolved by the shooter and the range officer.

5. COMPETITORS EQUIPMENT

Competitors competing must use their own equipment (you can borrow equipment as long as you are in a different detail)

Each shooter shall have:

5.1 Rifle

Any service rifle can be utilized, note that each participant is allowed to enter only one rifle per event. Rifles may be shared but split into different details.

5.2 Ammunition

Ammunition used must be of a type that is standard issue ball rounds in any given calibre, and the use of any match, target, (factory or reloaded) are acceptable. Soft point or hunting designated projectiles in some calibres may be used if approved.

Ammunition which, in the opinion of the Range Officer, is unsafe, or is prohibited for use by Range Standing Orders shall not be used (e.g. armour piercing, tracer

5.3 Groundsheet

A ground sheet or shooting mat may be used for the protection of the competitor's clothing and/or equipment provided that it is not constructed or utilised in such a way as to provide artificial support for the competitor or his rifle.

5.4 Sling, Bipod, Rest

Slings can be used.

The use of a Bipod/ mono/ tripod bench rest is not allowed.

The Rifle can only pivot on one point and that is the magazine.

5.5 Ear Protection

Ear protection is mandatory on all ranges. This is to protect shooter and range staff/spectator hearing and a minimum of Grade 4 earmuffs/plugs is recommended for this purpose.

5.6 Dress and Accessories

Clothing worn should be of a type normally described as street clothing or field clothing.

The clothing may be of a suitable robust construction for the purpose intended.

No military camouflage.

Wet weather clothing may be used.

Elbow and shoulder pads may be sewn onto or strapped to the outer garment but may not exceed 10 mm in thickness or be more extensive than is necessary to protect the elbow knees or shoulder area.

Full cover footwear must be worn at all time. Bare feet, sandals, etc., are not permitted on the firing line or in the butt's area.

Specialist target rifle shooting hats are not permitted.

Specialised shooting gloves or mitts are not permitted.

Normal gloves are permitted.

5.7 Scopes and Optics

Any type of spotting scope may be used as long as it does not aid the shooter while shooting.

A maximum of 4.5x(set) power scope is used for Service Class (as per International Service Rifle Associations).

For Open Class there is no limit to the scope.

5.8 Magazine

Any magazine for the specific rifle no longer than 360mm may be used.

No drum magazines allowed.

6. CLASSIFICATIONS OF AGE – Determined by date of birth

In every class there will be the following age categories

6.1 **Juniors:** younger than 25
6.2 **Shooters:** 26 not older than 45
6.3 **Veteran:** 46 not older than 54
6.4 **Master:** 55 and older

7. RANGE OFFICER

Is a person that is in control of the shooting range. He will give all the commands and there may be more than one range officer.

8. RANGE OFFICER - Commands

- "Shooters to the Line or shooting point"
- ''Make ready''
- ''With a magazine of (amount of rounds) - ''Round load''
- ''Action'' only if you have sighters - 'When your target appears fire your first/second sighter only one shot''
- ''Watch and Shoot'' - ''Watch and Shoot''
- When your target appears you can commence firing
- At the end of the match the commands will be:
    - ''any protests"
    - ''Unload"
    - After unloading make safe, at that point make ready for next match.

- At the end of each distance insert your flag, the range officer will see the flags and ask you to leave the shooting point.
- Where this area is under the supervision of a Range Officer, the removal of the firearm may only be with the Range Officer's permission.

9. CLASSIFICATIONS OF SHOOTING CLASSES

All firearms and equipment used in competition shall be serviceable and safe.

Service X Class:

Service X Class will consist of a semi auto 5,56 rifle, example Lm4/5, Galil, and AR15, with any 1 to 4.5 power scope or a red dot.

If a 1 to 6/8/10 is used it needs to stay on max 4.5.

This is determent from International Service Rifle Association. If they change, we will change.

Open Class X

Any calibre any scope size

If a red dot is used on calibre larger than Service class, it will be open class

Rifle example R1, FN, G3, M10, LM, AR etc. with a scope with no limits

A Class (iron sites)

Rifle example R1, FN, G3, M10, AR15 etc. Iron sights

Open Bolt Class X

This is a class for the bolt action rifles, with a no limit scope.

Calibre example 303, 308, etc.

Open Bolt Class A

This is a class for the bolt action rifles. Iron sights

Calibre example 303, 308, etc.

Class qualification

There must be 5 or more participants in the same class to be a valid class.

If a competitor changes from one class to another.

1. From A Class to Service Class the competitor will take all his/her league scores to Service Class but from Service Class to A Class the competitor will forfeit all league scores.

2. From Service Class to Open Class the competitor will take all his/her league scores to Open Class but from Open Class to Service Class the competitor will forfeit all league scores.
3. If a competitor rifle breaks and cannot be repaired he/she can opt to forfeit the day or, the competitor can borrow a rifle not greater than the class he/she competes in.
   Example A class cannot borrow a Service or Open class rifle, Service cannot borrow an Open class rifle. But an Open class can borrow a Service rifle, and a Service rifle can borrow an A class rifle.

10. RULES/INFRACTIONS AND PENALTIES

10.1 Safety Infractions

No competitor or team shall act in an unsafe manner. The safety precautions and firearms handling must be at a high standard

10.2 Negligent Discharges

A negligent discharge is defined as any round fired on the range EXCEPT during the ordered shooting period AND from the ordered firing point AND in the direction of the assigned target.

In the event of a negligent discharge, the competitor will invariably be disqualified from the match and will be reported to the Match Committee. Disciplinary action may be taken.

Accidental discharges, i.e., shots fired safely but unintentionally, are distinguished from negligent discharges. Accidental discharges will be scored as misses and the ammunition expended will not be replaced.

10.3 Match Rules Infractions

Firing under a name other than his own, shall, on the occurrence being proven to the satisfaction of the Match Committee, have his total score disallowed.

10.4 Penalties

Any violation of safety rules may entail disqualification or a lesser penalty.

Any violation of the code of conduct may entail forfeit of score and exclusion from further competition (DQ) or a lesser penalty.

Any violation of the match rules may entail disallowance of total score, a specific match score or a specific shot score.

If, in the opinion of the RO, a competitor is behaving in an unsafe manner or with discreditable conduct, that competitor will be cautioned concerning the behaviour. If the competitor continues to engage in the cautioned behaviour or continues in other unsafe or discreditable conduct the RO may order the competitor to be escorted from the range.

Deliberate shooting on a competitor's target to disadvantage a member will be immediate dismissal.

10.5 Appeals

Any claim or complaint arising at a firing point shall be made by way of a protest to the RO. Where possible, the RO is to resolve the matter.

Should a competitor feel he is being treated unjustly, he should request that his case be considered by the ARBITRATION COMMITTEE. Such protests should be made at once. The ARBITRATION COMMITTEE may reject any protest not presented to the RO within two hours of the occurrence of the incident under protest.

If the RO decision is disputed or if the protest is not solved immediately, it shall be put in writing by the competitor and handed by him to the ARBITRATION COMMITTEE, who shall note on the protest, the time of receipt and any pertinent remarks he wishes to make.

The shooter must print and sign his name on the written protest.

The ARBITRATION COMMITTEE shall ensure that the protest that has been given will be attended to A.S.A.P.

When a competitor has been escorted from the range on the authority of the RO, due to discreditable or unsafe conduct, the competitor may appeal to the Match Committee.

11. SHOOTING POSITIONS

11.1 Standing

In the standing position the butt of the rifle must be in the shoulder with the muzzle pointing in the direction of the shooter's target. Body supported on both feet and with legs uncrossed. The rifle will be held using both hands. No other part of the body may be supported by any external objects

11.2 Sitting

Sitting position, the butt of the rifle must rest against the shoulder, buttocks on the ground. The rifle will be held using both hands.

11.3 Kneeling

In the kneeling position the butt of the rifle must rest against the shoulder. Sitting on one foot and the other leg from the knee downwards touching the ground. No external supporting object may be touched.

11.4 Squatting

In the squatting position the butt of the rifle must rest against the shoulder. Weight of the body supported on both feet and the knees bent. No external supporting object may be touched.

11.5 Prone

In the prone position the butt of the rifle must rest against the shoulder. The magazine may rest on the ground or forearm, pistol grip or hand holding the pistol grip may not touch the ground. The Rifle can only pivot on one point and that is the magazine.

If the competition states it's a sitting exercise the competitor can kneel, squat or stand, if it is a kneel/squat exercise the competitor can stand.

12 MATCH PROCEDURES

12.1 General

This will depend on the number of competitors and the number of matches actually shot may vary from year to year (at the AGM).

12.2 Squadding

It is the competitor's responsibility to be present 15 minutes prior to the commencement of the match or duty assignment.

Squadding will be done on the range by the range staff

12.3 Scoring

No competitor may, under any circumstances, knowingly claim or accept points he has not made, or collude with another competitor to produce a false score.
In general, whenever a shot makes a hole in a target, regardless of the hole's shape or size, it shall be scored according to its location. If the hole touches a scoring line it will be given a score of the higher value. A shot on a target other than the shooter's assigned target will count as a miss

12.4 Excess Hits

If a target has recorded more hits than the match conditions allowed. In such cases, it's crucial to first verify if there exists a target with fewer than the required number of shots. This could indicate another shooter inadvertently shot at the wrong target. If so, the excess' hits will be deducted low then high, but only if it can be determined by calibre size only the wrong calibre must be removed.

If a shooter has more hits than permitted and upon investigation, and there is no corresponding target with lesser shots, a full review must be done. Should there be clear evidence, such as video footage, proving that a shooter has indeed fired more than their allowed shots, it will unfortunately result in the disqualification of that shooter. Their participation in the event will be terminated to maintain the integrity of our matches. On the other hand, if it cannot be established that the excess shots were fired deliberately, gradually deduct high to low until the shooter meets the required shot count. If a shooter has been found guilty, he will face a disciplinary action.

It's essential that we uphold the standards and fairness of our competitions.

12.5 Re-Shoot

A re-shoot may be granted for, but are not limited to, the following reasons:

- A target exposure of less time than is described in the match conditions

- Under failure of shooter's equipment (extractors, firing pin, springs snap,
- any physical breakage) will be grounds for a re-shoot.
- A re-shoot will not be allowed in the event of a stoppage caused by a jam or double feed.
- If a round ''primer failed'' due to manufactures default, it will be a defective primer. A re-shoot will be granted.
- A defective round can be replaced and fired if match conditions allow. No additional time or special opportunity will be given. At the rang officer's command (any protests) the shooter must indicate there is a problem, at that point that shooters target will not be scored until the protest has been resolved.

13 Shooting Dates

SASRA does not hold competitions on Sundays. However, we do offer the "Introduction to SASRA" shoots, which are held three times a year on a Sunday. These sessions provide a unique opportunity for new and regular members alike to enhance their skills in a SASRA environment. Participation in these shoots will count towards your activity report. This will be allowing you to use them for Introduction, tutorials, exercises, and further training within the organization. The Sunday shoots will not count for your year totals.

Any of the abovementioned rules can be changed at an AGM/ EXCO meeting.

14 EQUIPMENT, RIFLE AND AMMUNITION FAILURE

14.1 If a shooter participated in an event and the equipment or ammunition failure occurs in a manner that the shooter cannot continue or start, and /or it is damaged beyond field repair, the attendance will still be recognized as an activity

for dedicated status. The shooter will not receive a score for the day and won't be penalized on average statistics.

14.2 If at a Provincial or National the shooters rifle or ammunition is defective the range committee will have the final say if the shooter can have a reshoot or not.
